

My carpets look like new! Tom's Carpet Cleaning Services LLC did an outstanding job of restoring my carpets after months of people visiting, and helping my dying husband. After he was gone, the spotted carpet was a constant reminder of those terrible months. Within just a few days their crew came and were not only very professional, but also compassionate about my loss. I now have clean carpets, but I also have some new friends. I've used other services in the past, and never been as pleased as I am with the job Tom and Claudia did. Would I recommend them? Absolutely!
